STURT STREET, SOUTH MELBOURNE,
1st October, 1898.

To Our Friends

THIS CATALOGUE is respectfully presented to you to solicit your Orders for the various Goods manufactured and imported by us. In preparing same, we have endeavoured to make it represent a fair sample of our Manufactures, and take this opportunity of thanking you for your most liberal support during the past 13 years we have been catering for your trade.

We are makers of many designs of various Goods not represented here. All the cuts in this Catalogue are exact drawings from the originals manufactured by us, and we feel sure that our efforts to present the trade with an up-to-date Catalogue will be appreciated.

The constant demand for new style makes frequent changes necessary. The many new and original articles of Furniture found in this Catalogue, together with the reputation TYE & CO. have for providing new and up-to-date Goods, is a sufficient guarantee that our Stock will always be found fully abreast of the times.

In our immense Works, equipped with most Modern Machinery and Patent Dry Kiln Plant, buyers can rely on seeing much to interest them. Our Show Rooms are always filled with the latest of everything; and if you are not buying from us, it is (we feel confident in stating) because you have not visited our Factories, and are unacquainted with the Quality and Value of Goods we offer.

Yours truly,

TYE & CO.

Graphophone

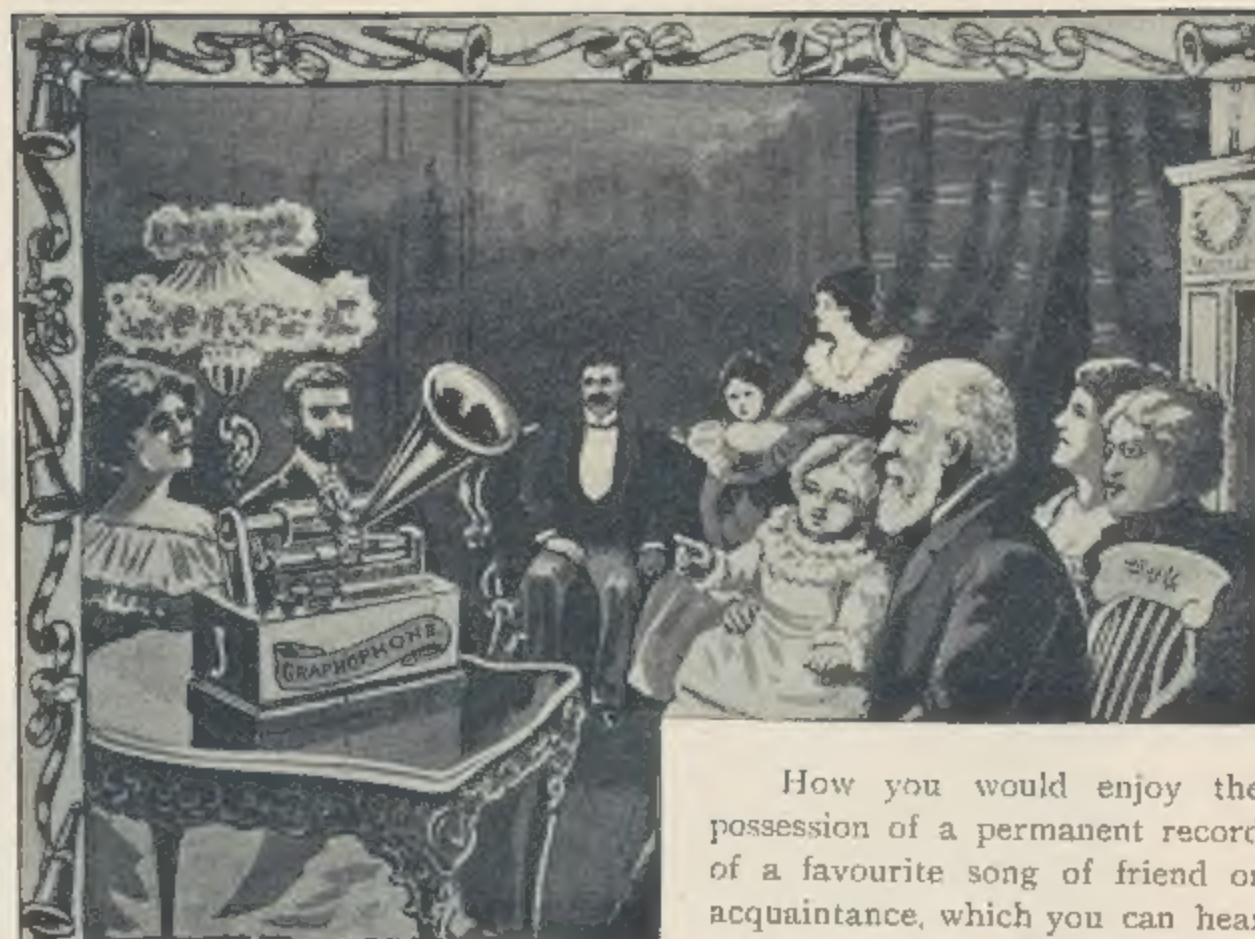

THE talking machine in its perfected form, the Graphophone, is becoming a familiar object in homes and offices, and more and more a necessity in the daily lives of the people. It is no longer merely a scientific toy. The Graphophone has taken its place among the practical and beneficent inventions of the age. This results from great improvements represented in the Graphophone; improvements that cover every point. The record is flawless and the reproduction of sound absolutely faithful to the original. Moreover, the Graphophone has been so reduced in cost as to make it easy for everyone to buy one, and so simplified as to make it easy to operate it when one has bought it. No special knowledge is required to obtain from the Graphophone the best results. No electrical apparatus is necessary unless the purchaser desires it, as Graphophones are made to run with clockwork, and no more skill is needed to operate one than to wind a clock. One can learn all about the Graphophone in a few minutes and then is master of an instrument capable of affording him endless pleasures, if he is seeking for entertainment, and performing wonders in the way of despatching his business if he is looking for a trustworthy and perfect amanuensis.

For Entertainment at Home.

The use of the Graphophone most quickly appreciated is that which contributes to the pleasure of the home, or of any social gathering. It is unrivalled as an entertainer. Fascinating in itself because of the mysteries of natural science which it suggests, it will afford more delight to lovers of music than any one or any dozen musical instruments, and with the advantage that no skilled performer is required to awaken the spirit of melody that dwells within it.

With aid of the Graphophone, that exquisite thing, the human voice, is made imperishable.

How you would appreciate listening, in after years, to records you can make of the little sayings of your children, which can be given with perfect fidelity so as to present all the peculiarities of childish speech.

How you would enjoy the possession of a permanent record of a favourite song of friend or acquaintance, which you can hear over and over again without the

presence of the singer! Who could invent a more interesting or delightful feature of amusement in the drawingroom than for each person to say a few words, recite a verse or quotation, sing a song, or read a short selection into the Graphophone, to be reproduced that all may hear: and be preserved, if desired, for use at some time in the future?

RECORDS, with care, should wear for years.

A **SHAVING KNIFE**, which may be attached to Graphophone for shaving Records, supplied at 35/-

If desired, **Records** may be **shaved** at our Showrooms, for the small sum of 6d.

SIX RECORDS GIVEN WITH EACH MACHINE.

No limit to the selection of Records, which can be quoted for per single Record or per dozen. Blanks for taking Records can also be purchased in the same manner.

A Few Selections from the List of the Famous Columbia Records, which number thousands:

The Darkies' Dream (descriptive with clog)
